PROJECTS / OPEN-SOURCE

WannaMeal (meal recommendation system) | Link   *ReactJs , CSS , Bootstrap , Redux , next i18 , RestFul API, Postman , Git/GitHub , SEO*
   - with this project, we solved every mother problem (what will I cock today?)
   - target users (mothers - stranger college students)
   - The user input food ingredients in his fridge, and the website gives him suitable meals
   - we provide users community for sharing posts, likes, adding comments, and chatting
     but unfortunately, chat is static for now
   - we provide fully authentication & auth with Google
   - fully integration with real Backend
   - fully integration with real UI/UX designer
   - fully state management using redux
   - provide 2 Languages (English - Arabic) using nexti18 library
   - fully profile controlling
   - protected routing (user can not route to any page until he login successfully first) & multiview for user
     and admin
     that admin can route to pages the normal users can not route to it, like the dashboard page

E Commerce | Link   *ReactJs , Scss , Bootstrap , Redux , RESTFUL Api*
   - browse and filter products depending on the category
   - search about products with keywords like name or category
   - add products to his cart and remove
   - using sweatalert2 library for beautiful alerting to user
     Repo: https://github.com/mahmoudkhairy402/ecommerce-redux

Portfolio | Link   *ReactJs , css, Bootstrap*

- This is my portfolio with awesome dark mode, animated scrolling
- which present my projects,and you can look at all my work, and also you can connect with me , using formspree library

   Repo: https://github.com/mahmoudkhairy402/Portfolio

Prayer Timer | Link *ReactJs (vite) , css , material Ui ,RESTFUL Api*

   This is website to calc muslim praying time , from different cities, with countdown counter for every pray

   Repo: https://github.com/mahmoudkhairy402/prayer-timing
